PHILOSOPHICAL.

The Philosophical Preparatory Course is the same as the Classical, except that for the Greek of the second and third years, elementary science, history, and the German language are substituted.

# OHIO + UNIVERSITY.

## ORIGIN OF THE UNIVERSITY.

The Ohio University is the oldest literary institution northwest of the Ohio river. Its existence was provided for as early as 1787, in the purchase made from the government of the United States by the Ohio Company of Associates. By the contract between these two parties, two townships of land were set apart for the purpose of a University and placed under the care of the Legislature of the State. The University was organized under an act of the Legislature passed in 1804. Its Trustees are appointed by State authority, and the Governor of the State is, *ex-officio*, a member of the Board.

## LOCATION.

Athens, the seat of the University, is situated in the southeastern part of the State. It is easily accessible from the east and west by the Marietta & Cincinnati Railroad and its branches, and from the central and northern portions of the State by the Columbus, Toledo & Hocking Valley Railway. By these routes it is about one hundred and sixty miles east from Cincinnati, and seventy-five miles southeast of Columbus.

## LIBRARY.

The several libraries connected with the institution have been combined and placed under the same management. The united library affords to students the means of reference to standard authorities in almost every department of knowledge, and an opportunity to become acquainted with the best literature of the present and former times. It is open daily for reading and reference, and once a week for issuing books. Valuable purchases are made for the library

every year, and the amount of money devoted to this purpose hereafter will be greater than ever before.

### APPARATUS AND CABINET.

Much valuable apparatus has been procured for the various departments of mathematics, astronomy, physics, and chemistry; and these subjects are illustrated by experiments. Before the opening of the next year, a new chemical laboratory will be provided, which will contain working tables and every facility for conducting experiments.

The cabinet affords important aid in the study of mineralogy and geology. Contributions to this department are earnestly solicited from the friends of the institution.

### IMPROVEMENTS.

Important additions have recently been made to the resources of the University. The regular income has been increased by about three thousand dollars per annum; and by an act of the General Assembly of the State the sum of twenty thousand dollars has been appropriated for repairs on the buildings.

The Trustees have been making use of these new resources to enlarge the facilities for instruction and to increase, as much as possible, the thoroughness and efficiency of the education given at the University. During the year 1881-82, extensive improvements have been made in the buildings, and a new building, containing an assembly hall and halls for the literary societies, is in course of erection.

### LITERARY SOCIETIES.

There are two literary societies in the University—the Athenian and the Philomathean. The members have opportunity to exercise themselves in declamation, composition, and debate, and to become familiar with the modes of conducting business in deliberative assemblies.

## COURSES OF STUDY.

Such courses of study have been adopted as experience has proved to be best adapted to the purposes of liberal education. The classical course, in fullness and arrangement, will compare favorably with that of the best institutions. The philosophical course is so arranged as to meet the wants of those who may prefer to study modern languages and English branches instead of Greek. It includes all of the classical course except the Greek, for which French, German, and English are substituted.

Those who are able to attend for a short time only may take a select course, provided the studies they may wish to pursue are such as they are qualified to take up with advantage. But no student will take a study to which he has not been assigned, or discontinue a study without permission obtained from the Faculty.

No students except Seniors and those taking a select course, are permitted to recite in the Senior studies of the third term, and the Senior examinations of the third term are limited to the regular Senior studies of that term.

## PREPARATORY DEPARTMENT.

This department is designed to prepare students for the regular courses of the College department. Students are also received who may wish to pursue elementary studies, even though they may have no intention of entering upon one of the higher courses.

Candidates for admission to this department must furnish satisfactory evidence of good character, and must pass examination in geography, arithmetic as far as percentage, English grammar as far as syntax, and all studies of the course lower than those which they wish to pursue.

## NORMAL CLASS.

At the opening of the Fall and Spring terms, 1882-83, a class for teachers will be formed, to which instruction

will be given in the branches commonly taught in country schools, and lectures will be delivered on the principles and duties of school work. Those who desire will also be admitted, if found qualified, to the regular classes in algebra, physiology, and botany.

### METHODS OF INSTRUCTION.

Instruction is given both by recitations and lectures. The constant aim in both is to awaken interest in study, to aid in the acquisition of knowledge, and to develop the powers of thought and communication.

Lectures are delivered by the President during the second term on psychology, and during the third term on the history of philosophy; by the Professors of ancient classics on the language, literature and history pertaining to that department; and by the Professor of natural sciences on chemistry, geology, and astronomy.

The classes in botany and geology make excursions into the surrounding country, that they may collect specimens and derive scientific knowledge from original sources. The class in surveying has practice in the use of instruments by actual work.

### MANUALS AND BOOKS OF REFERENCE.

Harkness's, Allen and Greenough's, Zumpt's, and Madvig's Latin Grammars.

Hadley's and Goodwin's Greek Grammars.

Goodwin's Greek Moods and Tenses.

Anthon's Classical Dictionary.

Autenrieth's Homeric Dictionary.

Long's Classical Atlas.

Andrew's and Bullion's Latin Lexicons.

Liddell and Scott's and Pickering's Greek Lexicons.

Porter's Human Intellect.

Bain's Mental Science.

Ueberweg's History of Philosophy.

Thalheimer's Ancient, and Mediæval and Modern Histories.

Earle's Philology of the English Tongue.

## ADMISSION.

Applicants for admission must present satisfactory testimonials of good character; and students coming from other colleges must present certificates of honorable dismissal.

Examinations for admission are held on the day preceding the beginning of the college year, and on the first day of the second and third terms of the year. Candidates will, therefore, be present September 12, 1882, December 9, 1882, and March 27, 1883.

Candidates for advanced standing are, in all cases, examined to ascertain their thoroughness and proficiency; but certificates from other institutions will be accepted for the *amount* of work done in the classics.

Ladies are admitted to all departments of the University on the same terms and under the same conditions as those prescribed for young men.

## DISCIPLINE.

Entering the University will be considered a pledge to obey its rules and regulations. These are few and simple, appealing to the student's self-respect and sense of personal responsibility.

A record is made of the daily work of each student. When the standing of the student, as shown by this record and the examinations, falls below a certain mark, he must review the study.

Records are also kept of each student's deportment. A low standing on either record, is followed by private admonition, and notice is given to the parent or guardian.

Whenever the conduct of a student is such as to indicate that he is unfit to be a member of the University, either because of immorality or because of habitual neglect of his college duties, he will be dismissed. But in the latter case his parents will first be requested to withdraw

him, and if not withdrawn within a reasonable time, he will be dismissed.

### RELIGIOUS INFLUENCE.

The University is not sectarian, and no effort is made to inculcate the doctrines of any particular creed or denomination; but care is taken to promote sound and healthy religious sentiments. Students are required to be present at prayers in the chapel every morning, unless excused by the Faculty; and to attend public worship on the Sabbath, but the choice of the place of attendance is left with the student or his parents. A students' prayer-meeting is held once a week, at which attendance is optional.

### DEGREES.

The degree of Bachelor of Arts is conferred on those who finish the entire classical course and pass satisfactory examinations.

The degree of Master of Arts is conferred, on the payment of ten dollars, upon every Bachelor of Arts of three years' standing, who has sustained a good moral character and has pursued professional or scientific studies during that period. The application must be made in person or by letter at least one day before commencement.

The degree of Bachelor of Philosophy is conferred on those who complete the philosophical course.

The degree of Master of Philosophy is conferred on Bachelors of Philosophy of three years' standing, on the same conditions as those for the degree of Master of Arts.

### EXPENSES.

The term fees, which are payable to the treasurer of the University the first day of each term, are:

Tuition, \$10.00; Room rent, \$3.00 or \$4.00; Contingent expenses, \$3.00.

In the preparatory department and the teachers' class the charges are :

Tuition, \$6.00; Room rent, \$3.00 to \$4.00; Contingent expenses, \$3.00.

One student from each county of the State is admitted free of charge for tuition. Any one desiring to have the benefit of a county scholarship, must receive his appointment from the Auditor and Commissioners of the county, and obtain from them a certificate stating that he is of good moral character and an actual resident of the county from which he is sent.

All students, whether they hold scholarships or not, are charged for room rent and contingent expenses, and are held liable for any damage that may be done to their rooms.

Board can be obtained within a convenient distance of the University at \$2.50 per week. By forming clubs many of the students board at \$1.75 to \$2.25 per week. Those students whose circumstances require it are allowed to board themselves, and by this means their expenses may be still farther reduced.

The actual cost of an education at the University will depend very much upon the disposition and habits of the student. The necessary cost is very low—as low as at any other institution affording equal advantages. It is earnestly recommended to parents not to furnish their sons or daughters with extravagant means. The scholarship and character of a student are often injured by a free indulgence in the use of money. Whatever is beyond a reasonable supply exposes him to numerous temptations and endangers his happiness and respectability.
